POINTS OF INTEREST.

The following table may serve to explain in a brief manner several points of interest about our "Star Wind Mill." It should be borne in mind the power and number of revolutions of a wind wheel vary; this table is based on a good strong wind.

Cable	Diameter	Length of Stroke	Revolutions per minute	Wind Surface	Horse Power	Shipping Weight
<i>Elder</i>	10 ft.	5 ins.	40	78 sq. ft.	$\frac{3}{4}$ to 1	400 lbs.
<i>Elect</i>	12 "	6 "	35	117 "	1 to $1\frac{1}{2}$	700 "
<i>Elegy</i>	14 "	8 "	30	161 "	$1\frac{1}{2}$ to $2\frac{1}{2}$	1000 "
<i>Elemi</i>	16 "	10 "	25	186 "	$2\frac{1}{2}$ to $3\frac{1}{2}$	1400 "

These are the sizes for Farm Pumping. Inquiries concerning larger sizes will be answered on application.

Special attention given to Export Orders.

Send for catalogue and prices giving full information.
